DINNERWARE

## **VerTerra:**

/ve(ə)r-te(ə)r-rä/

: true to the earth; derived from the latin 'veritas'  
meaning 'truth' / 'terra' meaning 'earth'.

***It all started with a silly idea to make Dinnerware from Fallen Leaves®...***

*VerTerra is a mission-driven company built on the belief that every culinary creation deserves a beautiful, sustainably crafted foundation. We repurpose earthly discards – like fallen leaves and reclaimed wood – to design elegant dinnerware that invites nature's beauty to the table.*

*Dinnerware that's stylish for you and sustainable for the future.*

A close-up photograph of a shallow, light-colored wooden bowl filled with several bright red raspberries. The raspberries are the central focus, with some in sharp focus and others slightly blurred in the background. The bowl is resting on a dark, textured surface, possibly a wooden table. The lighting is soft and directional, highlighting the texture of the raspberries and the wood. The entire image is framed by a thin white border with small square corner markers.

## Stylish

VerTerra focuses on developing products with clean lines and an understated, timeless style to help every culinary creation shine. Let your guests “feast with their eyes” before their first bite.

## Sustainable

VerTerra's respect for the earth starts with our use of materials: fallen palm leaves and reclaimed wood to produce award-winning products. Our respect for nature is continued through our design: chemical free, BPI-certified, compostable plates and bowls and space saving collapsible boxes. Your meal may not be guilt-free but your dinnerware certainly will be.

## Versatile

VerTerra's lightweight yet durable products stand up to hot foods, liquids, acids and oils to deliver the performance you need indoors or out. Our plates and bowls even go into the oven or microwave for reheats.
