PERFORMANCE THAT

inspires

The unsurpassed performance of a Vitamix simply allows people to do things that they cannot do with any one appliance and in some cases any other way. It allows them to create delicious dishes and beverages faster, healthier, more consistently, more precisely. It frees them to try new things, to unleash their creativity. Thus, it truly is more than a blender. Vitamix is ***performance that inspires.***

Roband Australia is pleased to be able to present our range of Vitamix blenders, selected specifically to suit the Australian market.

BEVERAGE BLENDERS Page 1

Vitamix sets itself apart as the leader in the global commercial blending industry by bringing value to its customers through the quality and consistency of blend, improving speed of service, enhancing reliability and developing customized programs. Operators can easily offer a successful beverage program with perfectly blended frappés, smoothies, shakes, daiquiris, margaritas, and other high margin cocktails when using Vitamix beverage blenders.

CULINARY PREPARATION Page 5

Across the globe, chefs and culinary schools count on their Vitamix equipment to create the perfect tastes and textures found on their menus. Chefs count on Vitamix blenders for versatility, reliability, and outstanding performance. In busy kitchens where volume, quality, and efficiency are key to successful dining experiences, you'll find Vitamix professional blending equipment.

FEATURES & SPECIFICATIONS Page 8

Information on selecting the right Vitamix for your business.

THE QUIET ONE®

Living up to its name, The Quiet One has advanced vibration dampening technology that creates Vitamix quality drinks in a more enjoyable customer atmosphere. The magnetically-secured, floating sound enclosure significantly reduces noise when running and is easy to clean and disassemble.

Featuring powerful ~3HP performance, The Quiet One efficiently delivers consistent drinks every time. With 6 buttons providing access to 34 individual blend programs, the machine can be set up to suit your own recipes. Additionally, the powerful motor allows up to 1.4 Litres to be blended at any one time.

In-Counter

On-Counter

T&G™ 2 BLENDING STATION®

The T&G 2 is supplied with a sound enclosure which significantly reduces noise levels.

With a ~2 peak output HP motor and 34 programs accessed via the 6 button control pad, operators can easily create smoothies, frappés, ice cream drinks and frozen cocktails. The machine can blend up to 900 ml at any one time.

On-Counter

DRINK MACHINE

DRINK MACHINE ADVANCE®

From fruit smoothies to thick shakes, the Drink Machine Advance is an essential tool for adding or expanding a blended beverage program.

With 6 optimized programs, automatic shut-off and pulse control, it delivers consistent and delicious drinks every time, without the need for an experienced operator.

DRINK MACHINE TWO-SPEED

The Drink Machine Two-Speed is the reliable blender for powerful, functional, blending.

With manually-controlled two-speed capability, the Drink Machine Two-Speed will flawlessly create delicious, frozen coffee drinks, fruit smoothies, frappés, granitas, shakes and more.

This entry-level option allows operators to manually select a high or low blending speed, delivering results that can only be achieved by a Vitamix while minimising the initial outlay.

BARBOSS® ADVANCE®

Whether preparing blended drinks, simple syrups, or purées for cocktail bases, the BarBoss Advance is an essential tool for adding or expanding a beverage program.

With 6 optimized programs, automatic shut-off and pulse control, it delivers consistent and delicious drinks every time.

PORTION BLENDING SYSTEM® ADVANCE®

The PBS Advance is the portion control ice shaver blender with ultimate flexibility for your business. With its large 19 Litre (5 gallon) ice capacity, ice shaver dispenser and 6 optimized programs, it can create up to 4 crowd-pleasing drinks at once.

A reliable advanced-technology blender, with 93 speeds, variable speed control and automatic shut-off provides delicious consistency from drink to drink. These units ensure consistency by weighing shaved ice in each program, creating repeatable results regardless of the type of ice used.

VITAMIX XL® VARIABLE SPEED

Maximize your kitchen's possibilities with the largest capacity, countertop blender.

Blend up to 24 (235 ml, 8 oz.) servings at once! The XL, with its vast 5.6 Litre container and powerful ~4.2 peak output HP motor, is engineered to reduce prep-time, improve staff efficiency, and expand your menu capabilities.

VITA-PREP® 3

With its ~3 peak output HP motor, professional chefs and culinary schools around the world trust the Vita-Prep 3 for exceptional power, versatility, and performance.

From chopping delicate ingredients to blending tough purées, the Vita-Prep 3 is the only tool that's durable and capable of perfectly chopping, grinding, and blending it all.

ACCESSORIES

CONTAINERS*

Available in a variety of sizes, the containers come complete with a blade and lid assembly. Built for and renowned for their superior durability, Vitamix containers are made from shatterproof polycarbonate material.

Featuring the new Advance Container with its unique design which creates faster, smoother pouring without the mess. Its unparalleled shape, and built-in drip-less spout improves pourability, resulting in time and cost savings and an improved speed of service. The exclusive double-sealed bearings extend the life of the blade assembly.

Advance® Container in 0.9 Litre or 1.4 Litre

1.4 Litre Container

2.0 Litre Container

5.6 Litre XL Container

RINSE-O-MATIC®

Powerfully rinses blender containers, saving time and money no more rinsing containers by hand or letting the water run; the Rinse-o-matic is the more efficient way to rinse out any 2.0 Litre or smaller blender container in seconds! Just place the container upside down and the high water pressure rinses residue away, saving you time and money.

CONTAINER BRUSH

Tough yet gentle! Durable and nonabrasive, the Vitamix container brush scrubs tough residue effectively in seconds. Resistant to breaking, the soft fibres bend to the shape of the container and around the blades to scrub even the most hard to reach places.

BLADES*

A precision hardened stainless steel blade which explodes molecules of food and ice in the container, helping every batch to homogenise more effectively, thus creating the smoothest, most consistent blend of drinks, or provide commercial kitchens with chopping, grinding and puréeing capabilities.
